SPIGEN ULTRA HYBRID MAG MAGSAFE GALAXY S25 FE CLEARWHITE

Product code: 8800283311594-ACS10027

EAN: 8800283311594

Spigen Ultra Hybrid MagSafe is a case that combines the best features of protection and aesthetics, providing your smartphone with both safety and a unique look. Thanks to its unique hybrid construction (TPU + PC), which combines a durable frame with a transparent panel. Your phone retains its original design while being effectively protected from damage. Reinforced corners with air cushions (Air Cushion) effectively absorb shocks, providing additional protection against drops.

The slightly raised edges around the screen and camera protect these elements from direct contact with flat surfaces, and precisely made cutouts allow easy access to all ports, buttons, and functions of the device.

The case is equipped with a ring compatible with MagSafe wireless technology.

The magnetic ring ensures maximum charging efficiency and a quick and easy connection to all MagSafe-enabled accessories.

Spigen Ultra Hybrid is an excellent choice for those who want to secure their phone without obscuring its natural beauty.

PRODUCT FEATURES:
