

TECH-PROTECT ULTRABOOST TYPE-C EARPHONE CORE G2 WHITE

Product code: 5906302332311

EAN: 5906302332311

The Tech-Protect Ultraboosts Core G2 headphones combine elegant design with excellent sound quality, created for the most demanding users. Made from durable ABS and TPE materials, they impress not only with their sturdiness but also with their lightness and comfort of wear. With a Type-C connector, they provide a stable and fast connection to your smartphone, offering clear, dynamic sound without interruptions.

The frequency range of 20–20 kHz guarantees a full musical experience – strong, deep bass and crystal-clear highs will make your favorite tracks take on a new dimension. The 120 cm long cable provides freedom of movement and convenience for everyday use – at work, while traveling, or during workouts. The ergonomic design of the earbuds ensures a perfect fit in the ear, allowing you to enjoy music for hours without discomfort.

The Tech-Protect Ultraboosts Core G2 are reliable headphones that combine functionality, comfort, and style – perfect for anyone who wants to enjoy high sound quality anytime, anywhere.
