TECH-PROTECT ULTRABOOST DNA 3IN1 LIGHTNING & TYPE-C & MICRO- USB CABLE 3A 120CM IRON GREY

Product code: 5906302330294

EAN: 5906302330294

The functional Tech-Protect UltraBoost DNA cable is a practical 3-in-1 solution, equipped with USB-C, Micro-USB, and Lightning connectors, allowing for fast and safe charging of multiple devices simultaneously – with a maximum power of up to 15W (3A).

The intelligent circuit automatically adjusts the voltage and current parameters to the connected device, ensuring efficient and safe energy renewal.

The cable also provides stable data transfer at speeds of up to 480 Mbps, allowing for smooth file synchronization between devices.

Made from durable materials – a copper wire core, reinforced aluminum tips, and a flexible TPE coating – it offers high resistance to mechanical damage, bending, or abrasion. This ensures the cable remains reliable even with intensive daily use.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Durable construction
- Made from Aluminum and TPE
- Maximum total current: 3.5A
- Connector standard: USB-C / Micro-USB / Lightning
- Length: 120cm

SET INCLUDES:

1 x Tech-Protect UltraBoost DNA Cable
