TP FLEX MAGSAFE IPHONE 16 PRO CLEAR

Product code: 5906302336050

EAN: 5906302336050

TP Flex MagSafe is an elegant and lightweight hybrid case for the iPhone that combines solid protection with minimalist design. The back is made of hard polycarbonate, while the frame is made of flexible TPU, providing effective protection against scratches, minor drops, and impacts, while maintaining the slim profile of the phone.

The case fits perfectly to the device, with precisely made cutouts for ports and buttons. The built-in magnetic ring compatible with MagSafe allows for stable wireless charging and works with MagSafe accessories, while the slightly raised edges around the camera and screen additionally protect the phone when lying on a flat surface. The transparent back highlights the original look of the iPhone, and the slim design ensures that the phone retains elegance and lightness.

TP Flex MagSafe is the perfect solution for those who value minimalist style, practical protection, and full compatibility with MagSafe accessories.
