TECH-PROTECT SILICONE MAGSAFE IPHONE 17 PRO DEEP BLUE

Product code: 5906302333851

EAN: 5906302333851

Tech-Protect Silicone MagSafe is an elegant and functional case made from soft yet durable thermoplastic material, perfectly combining protection and minimalism.

Thanks to its thin design, the case remains ultra-lightweight, adding no unnecessary weight or bulk to your smartphone. It also retains full access to MagSafe wireless charging functions, allowing you to take advantage of the latest solutions.

Perfectly fitted, it ensures that the phone not only remains protected against accidental damage but also feels better in hand, providing a secure and stable grip. The minimalist appearance of the case allows you to fully enjoy the aesthetics of your device without overwhelming it with additional details. The high-quality case combined with an internal microfiber finish provides top-level protection for the phone.

An additional advantage of the case is its slightly raised form around the camera and screen, ensuring that these most vulnerable parts of the phone are adequately protected against scratches. The phone is lifted just above flat surfaces, minimizing the risk of scratches when placing the device on hard surfaces.
