## SPIGEN ESSENTIAL EV1133 3-PORT CAR CHARGER 113W BLACK

Product code: 8800283303780-ACP09543

EAN: 8800283303780

Spigen Essential EV1133 is an advanced three-port car charger with a total power of up to 113W, designed for the fastest and safest charging on the go. Equipped with two USB-C ports and one USB-A, it offers wide compatibility and rapid energy replenishment for smartphones, tablets, laptops, and other mobile devices.

The main USB-C 1 port provides 65W Power Delivery, making it ideal for charging smartphones, tablets, or even lightweight laptops. The second USB-C 2 port offers 30W PD and SFC 1.0 (25W), while the USB-A port supports fast charging at 18W QC 3.0. This allows the EV1133 to simultaneously and optimally power three devices without performance drops.

The compact head measuring 36 × 36 mm fits perfectly into most cigarette lighter sockets while maintaining a minimalist, elegant appearance. Subtle, non-dazzling LED lighting makes it easy to find the ports in the dark, and the carbon finish adds a sporty, premium character.

The package also includes a high-quality USB-C to USB-C 100W cable with E-Marker technology (100 cm), ensuring stable and safe power transmission. Protection is provided by a 15-layer security system that guards against overheating, overcharging, and surges. Additionally, Quantum Boost technology intelligently recognizes connected devices and automatically adjusts the optimal power for each.
